Esperanto is a half brother to Superman. Maskette is a full sister to Veil. Painted Lady's dam Dazzling carried Mr. Keene's colors in the English Qaks several years ago. The names have been anpropriately selected in accordance with Mr. Keene's custom. Including the older horses in the Keene barn, the Jockey Club's popular vice-chairman will have more than fifty thoroughbreds in training on the Eastern tracks this year—the biggest racing establish-

It was said yesterday that Capt. Jim Williams, the veteran turfman, had made an application to H. P. Whitney for the position of trainer of the latter's race stable, left vacant by the recent death of John W. Rogers. Capt. Williams was a part owner of Ram's Horn, who won the Brighton Handicap two years ago and died before that season ended. Ram's Horn ran in the name of W. S. Williams, the Captain's son.

Poolrooms in Kentucky will be absolutely prohibited and driven from the State if the bill which Senator Jack Chinn will report in the Legislature becomes a law, but the selling of pools on the racetracks will not be interfered with. Senator Chinn has withdrawn the Wilhelm bill against poolrooms which was recommitted, and after a consultation with the State Racing Commission of Kentucky he has drafted a substitute which he will report at once. The bill will legalize betting on the racetracks where racing is in progress and will insure racing at tracks which receive licenses from the Betting in poolrooms will be made a felony, imprisonment being the

"Several American bookmakers tried last year to butt into the English game," said a noted speculator yesterday, "but when they got over on the British tracks they found a peculiar state of affairs. The bookmakers over there are an exclusive set. They don't man is a relative or a close friend of some of the leading layers he hasn't a chance do business. The game is so good in England, by the way, that some of the bookmakers have made millions out of it. There is abso lutely no city or poolroom betting, while the future books on the big races are made either in Holland or in France by English speculators who do all of their business by mail, as such betting is illegal in all parts of Great Britain. It is a mistake to say that all betting on the English tracks is done on the credit system, for money passes be tween players and layers just as in this country. But the layers cannot occupy stools and are compelled to walk around on the lawn or in the infield."

Joe Gans, the lightweight champion, be Heves that Tommy Bruns in a finish fight would defeat Jack Johnson. "I think that Jeck Johnson is the eleverest heavyweight in the world to-day," said Gans the other day. "He is as elever as Jim Corbett was in his prime. If Johnson and Burns ever meet in a limited round bout I look to see Johnson get the decision. But if they meet in a finish fight I think Burns will win. In a finish battle he would wear the other fellow down and win Tom O'Rourke, who saw Burns fight Moir and Palmer on the other side, does not agree with Gans, for he declares that Burns overrated and would surely be defeated i he ever consented to meet the big negro Johnson is still waiting to hear some more details as to his proposed match with Burns in England. He says he wants to settle the question of supremacy as soon as possible.

I. C. A. A. A. A.'S MONEY TIED UP. The Association Has \$5,000 in the Knicker-

bocker Trust Company and Can't Get It. The executive and advisory committees C. A. A. A. Met last night at the Fifth Avenue Hotel for their customary confab directly preceding the regular convention of the association to-day. There were present Guy Emerson of Harvard, who was in the chair in the absence of John J. Rowe, the president of the association; George Lunt, New York University, secretary: Rush G. Estee, Columbia, treasurer G. T. Townsend, Yale; John Havron, Princeton: J. H. Cochran, Pennsylvania, and Clarence G. Bamberger, Cornell, of the executive committee, and Gustavus T. Kirby, Columbia. Romayn Berry, Cornell, and Thornton Gerrish, Harvard, the advisory committee.

It was announced that the association hadmade the unprecedented profit of \$4,245.49, last year, but that there would be no dividend this year for two reasons. One was that \$5,000, the balance of the association funds, is tied up in the Knickerbooker Trust Company. The other is that the association will woke to give \$1,000 to the Olympic grames committee and \$250 for a cup for the intercollegiate cross-country championship. The records made in the intercollegiate games last year were recommended for approval. The committee recommended that the intercollegiate meet be held on May 29 and 30 of this year at Soldiers' Field. Princeton and Pennsylvania are opposed to this and the recommendation will be the cause of some arruggling in the convention to-day. The other recommendations as to cross-country G. T. GOLF.

Annual Meeting of the East Jersey Association.

All interclub team matches on a schedule were abolished for this season by the East Jersey Golf Association at the annual meeting yesterday in this city. The team series had been in existence with six clubs since 1900, and the disbanded Roseville Golf Club won the cup last season. To take the place of the team matches the association will promote one day tournaments open to all the members. out no schedule of them will be announced. The stress of travel made the team matches inpopular with those who took part in them. especially the matches to complete the scheo after the winning team con ule after the winning team could be forecasted, and the stay at home members had also grown tired of giving the right of way to the teams on Saturday afternoons, when there is always a congestion on the courses. Of various team leagues organized by the women and men near New York since 1889 the Hudson River Golf Association is now the sole survivor.

vivor.
It was voted to lower the annual dues from \$15 to \$10 and to open the doors to all clubs eligible for membership. In the qualitying round of the spring and fall tournaments there will be a special prize for the lowest aggregate score by a team from any club, so that although the schedule neatches are off the interclub interest will be maintained. The championship was formerly limited to members who had qualified by taking part in a certain number of team taking part in a certain number of team matches, but now the only condition will be that a player must have been a member of his club for one month. There was a com-mittee appointed to draw up a new constitu-tion and by-law by-laws.

CLEAN SWEEP FOR TIGERS. Princeton Swimmers Win Every Event in

Meet With Columbia. Columbia failed to score one first place in the dual swimming meet with Princeton in the New York Athletic Club pool last night the New Jersey men winning by the score of 39 points to 14. The local collegians were not outclassed as the finish of every race was close and in only one event did Columbia fail to secure second honors. J. W. Chambe won the 100 yard swim in 1 minute 3 1-5 se

to secure second annors. J. W. Chambers won the 100 yard swim in 1 minute 31-5 seconds, equalling the intercollegiate record held by himself. The 800 yard relay was won by Princeton by five yards. Ralli, the Princeton captain, gained this lead on Babcock in the first relay, and try as they would the Columbia swimmers could not cut it down, Chambers finishing the last relay the same distance ahead of McKinlay of Columbia.

In the 220 yard swim Chambers took the lead at the pistol, but Arkush of Columbia caught him at the end of the third length. Arkush led the way by a slight margin for two lengths, when the Princetonian pulled away from him and won by six yards. McKinlay of Columbia fought it out stroke for stroke with Chambers in the 100 yard swim but was beaten by a yard.

Columbia won the water polo game after an exciting contest by 4 goals to 2. The summaries:

GOOD SWIMMERS AT THE SHOW

DANIELS AND TEAM MATE BEATEN IN HANDICAP RELAY.

Interest in the Racing Expected to Be at Its Height When the Fast Westerner, Handy, Meets the Champion-Xavier Boys Beat De La Salle in Team Shoot.

The Motor Boat and Sportsman's Show in Madison Square Garden is not only a mecca for all lovers of hunting, shooting and fishing and life in the woods but it is the centre of attraction just now for all who like to see a contest. The attendance at the show has been growing wonderfully, and each evening the Garden has been crowded. Last night the crowd was so great that Capt. Dressel and his aides are wondering what is going to happen next week, when many star attractions are scheduled. There were swimming races in the tank last night under the auspices of the Bath Beach Swimming Club, and every spot where even a peep at the tank could be had was occupied, and many more would have watched the sports if they could have got into the Garden

This afternoon races have been arranged for schoolboys. Three events are on the programme, and for these the boys have entered so liberally that it will take a long time to get to the best swimmers in each contest. The first is a race for midget school-boys under 80 pounds in weight. They are to swim twenty yards, or once the length the tank. Then will come a 160 yard relay race for teams of four, each boy swimming forty yards, and the last event will be a race for High School boys at eighty yards. For hese events entries have been made from all the best known schools in this city, and the Brooklyn swimmers will make a hard fight with the cracks of New York.

To-night there will be water polo. The New York Athletic Club team is to play against a team of the Bath Beach Swimming Club. and because of the known ability of the New York Athletic Club team a special handicap has been arranged and the Bath Beach team will get an allowance of four goals. The New York A. C. team will be selected from Goodwin, Ruddy, Wenck, Steen, Naething, Reid and Handley, and the Bath Beach team from Currier, James, Boyle, White, Martin, Mulvey, Kelley and Rice. For this game the tank has been enlarged, and now it has water six feet deep, so that the players will not be able to rest on the bottoms, and there is plenty of room to give a player a go od ducking.

here is plenty of room to give a player a go od tucking.

In addition to the water polo there is to be a girls' swimming race and a forty yard back stroke race in which Daniels will compete.

Word was received yesterday that Henry I. Handy of the Chicago Athletic Association is on his way to this city to meet C. M. Daniels in a series of races up to 300 yards during the coming week. Handy sent a telegram yesterday saying that he had missed the limited but that he would be on hand to swim on Monday night. He will, in addition to racing with Daniels, enter in all the open events he can during the week. Daniels and Handy hold many swimming records and these races will, it is hoped, settle as far as possible who is the better man. There has been keen rivalry between the two for some time and as each represents a big club each will have a liberal following. Capt. Bill Graham had some of the South Bay scooter men at the show yesterday. They have been at Orange Lake for some time waiting for an opportunity to sail the third race of the series arranged for the scooter and ice boat. The weather has not been favorable for some days, but word was received yesterday afternoon that the ice een favorable for some days, but word was ecelved yesterday afternoon that the ice was in good shape and the third race is to be sailed this morning. If the scooter wins his the series is ended and the baymen will ake their craft from Orange Lake to the bow and will celebrate their victory in fine tyle with the \$500 they will win.

Another race has been arranged for to-day.

Another race has been arranged for to-day. is for \$50 a side and the scooter Eagle is o sail against the ice yacht Junfor over a purse to windward. This is a point of sailing which the accoler is not supposed to its best. The length of the course will at its best. The length of the course will be regulated according to the wind. It will be as long as it can be laid on Orange Lake. The shooting at the ranges has proved to be very popular and more than 1,000 boys have taken part in the contests so far. These shoots are being managed by P. M. Seixas, secretary of the Junior Branch of the Sportsmen's Association. The prizes for which the boys are shooting have been presented by W. E. Reis, Jr., the president of the Junior Branch and knowing how much interested President Roosevelt is in shooting done by boys Mr. Seixas wrote to the President recently and asked him if he would not write a personal letter to the winner of the tournament. This reply was received yesterday:

February 27, 1908 MY DEAR SIR: Replying to your letter of the 26th instant I would say that the President will very willingly write a letter to the winner of the marksmanship contest. Very truly yours,

WILLIAM LOEB, JR. Secretary to the President, secretary Junior Branch National

This letter will be an additional stimulant to make the boys do much harder work during the con.ing week, the last of the show. In a team shoot yesterday between boys representing Xavier High School and De La Salle Institute, five boys on a team, each to shoot ten shots. Xavier High School won by

Salle Institute, five boys on a team, each to shoot ten shots. Xavier High School won by a score of 183 to 182.

The afternoon event for the followers of Izaak Walton was single handed bait casting for accuracy. Each man made five casts with half ounce weight at three targets, placed 60, so and 100 feet from the platform. E. J. Mills won, with 63 points. A. J. Marsh of Newark was second, with 51 points, and H. Friedman third with 42 points.

In the evening the event, in which most interest was taken, was a 200 yard relay handicap with two men on a team. Daniels and C. Trubenbach tried to give lots of time to others, but were beaten in their heat. They were allowed to compete in the final because they had made the fastest actual time and then finished third. D. King of the Bath Beach Swimming Club won the florest tilting contest, of which there were three heats, and C. Van Duzen of Bath Beach won the 60 yard novice race with T. Sunstrom of the New York Swimming Association second.

With the Volunteer Life Savers occupying the tank in the afternoon, swimming races in the evening, team shoots in the rifle range and fly casting and other sports in progress, to say nothing of the shooting with bow and arrow that the Indians teach in the Indian section of the show, visitors who could not find some contest of interest were really hard to please.

In the afternoon E. C. Miller and F. W. Fry

please.
In the afternoon E. C. Miller and F. W. Fry swam a 60 yard match race. Miller is an exchampion, and he received a rousing welcome as he plunged into the water. He showed that he is still a good swimmer, and he defeated Fry in one of the best races that have been seen at this show. The time was 312-5 seconds. Three more heats of the mattress race were decided. These were won by W. Pettigrew of City Island, W. Moore of Fourteenth street and R. Hammond of Inwood. Two bouts of the tug of war were also decided. The Inwood Division defeated the South Brooklyn team and took only 7 seconds to do it. Then the Fort Washington team defeated the Fourteenth Street Division team. Capt. A. Brandon of South Brooklyn and Graf, also of South Brooklyn, won heats in the 60 yard swimming race. The summaries: ease. In the afternoon E. C. Miller and F. W. Fry

AMONG THE AUTOMOBILISTS

DELEGATION OF MOTORISTS STARTS FOR ORMOND.

Automobile Club of America's Special Compartment Car Filled With Race Enthusiasts-Roberts Will Be Opposed by Famous Drivers in Grand Prix-Gossip.

Several additional entries have been reeived by the Automobile Club of America for the Ormond Beach race meet next week. The new candidates for honors on the famous sand racecourse are as follows: Louis J. Bergdoll of Philadelphia, an 80 horse-power Benz, which is entered for the 128 mile event for gentlemen amateurs and the 180 mile event for stock chasses; Dr. W. M. Stinson of Jacksonville, Fla., a 40 norse-power specially built Franklin, which is entered for the 128 mile gentlemen's race and the 100 mile race for the cup offered by the Minne apolis Automobile Club, and J. M. Gilbert of New York, head of the American branch of the Continental tire firm, who has entered his 30 horse-power Packard runabout in the

gentlemen's event at 128 miles.
The special compartment car engaged by the Automobile Club of America to make the trip to Ormond without change left yesterday afternoon with a goodly number of racing enthusiasts in it. Among those who went on this car were two members of the club's contest committee, A. H. Whiting and A. L. Riker, the latter being accompanied his wife; Russell A. Field, secretary of the Long Island Automobile Club; W. F. Sperry of New Haven, J. M. Gilbert and wife of New York city, Lieut. Philip A. Sayles of the Twenty-second Regiment and the New York Timers Club, Milo M. Belding, Jr., E. R. Hollander and A. R. Hawley of the E. R. Hollander and A. R. Hawley Automobile Club of America, W. J. Morgan of the New Jersey Automobile and Motor Club, Newark, N. J.; F. J. Wagner, N. Lazarnick, H. Staton, E. C. J. McShane and E. A. Percy of New York city.

S. B. Stevens, a member of the club's contest committee, had been expected to go with the special car party yesterday, but did not do so. Colgate Hoyt, president of the Automobile Club of America, is expected to leave for Ormond some time to-day. La Croix, American manager of the Renault concern, who has entered a big Renault racer in all of the events for which it is eligible, will leave for Ormond this afternoon

The cable despatch which was printed in THE SUN of February 16, giving the news that The Sun of February 16, giving the news that forty-five cars representing six nations had been entered for the Grand Prix race of the Automobile Club of France next July, did not give the list of cars that Montague Roberts and the Thomas will measure speed with. These details have reached this country, and the full list of cars that have been entered is as follows. France—Three Panhard three Moto-Bloc, three Lorraine-Dietrich, three Moto-Bloc, three Lorraine-Dietrich, three Renault, three Bayard-Clement, three Brasier and two Porthos. Germany—Three Benz, three Mercedes and three Opel. Italy—Three Fiat and three Itala. Great Britain—Three Austin and three Weigel. Belgium—Three Austin and three Weigel. Belgium

In his struggle to win this great speed contest for the United States Montague Roberts will have opposed to him most of the great automobile race drivers of the world. Nazjaro, winner of the 1907 Grand Prix, will again drive a Flat, as will also Lancia and Wagner, the latter winner of the 1908 Vanderbit cup race with a Darracq. Szisz, winner of the 1906 Grand Prix, is again a member of the Renault team, as are Dimitriewitch and Gustav Caillols, who was a member of the Thomas team in the American elimination trial for the 1908 Vanderbit cup race.

ber of the Thomas team in the American elimination trial for the 1906 Vanderbilt cup race.

George Heath, winner of the first Vanderbilt cup race, will be a member of the Panhard team, with Maurice Farman and Cissac. Hemery, winner of the second Vanderbilt cup race, in 1905, will be one of the Benz team, the others being Hanriot and Earl. Willy Poegge, Salzer and Laurenschlager will drive the three Mercedes cars. Duray, who was one of the French team in the 1906 Vanderbilt cup event, will drive one of the Lorraine-Dietrich racers, with his team mates yet to be announced. Gabriel, who drove a Lorraine-Dietrich for the last few years, will drive a Bayard-Clement, Rigal driving another, and Hautvast, who drove a Belgian made Pipe last year, the third Bayard-Clement. It has been reported that Henri Fournier, who made a great sensation by driving a Mors racer a mile in less than fifty-five seconds on the Coney Island Boulevard in 1901, will drive one of the Itala racers, but no positive announcement to this effect has been made.

Frank B. Hower, chairman of the touring board of the American Automobile Association, has announced his intention of adding a new feature to the route book which will be prepared for the 1908 tour of the American Automobile Association. This will be a list of the rates guaranteed for this year by hotels the contraction of the same of the rates guaranteed for this year by hotels. and garages in various States. Chairman Hower obtained guarantees from a number of hotels and garages last summer in con-nection with the 1907 A. A. A. tour and the plan worked so well that it is to be extended plan worked so well that it is to be extended to cover as much territory as possible. The States in which these guaranteed rates are given are New York, Connecticut, Rhode Island, Massachusetts, Pennsylvania, Ohio and Indiana. Other States are to be included

in the list later.

A Philadelphia automobilist has just lost a case, which was tried at Doylestown, Pa., in which he was sued for damages by the owner of a horse, which was asserted to have been rendered unsafe to drive after haiving been frightened by the Philadelphian's automobile. The plaintiff in the case asserted that before being frightened the horse was a perfectly gentle family beast, but that since then it has been so nervous that it is unsafe to drive. The jury awarded \$245 damages to the plaintiff and assessed the costs against the Philadelphia unan. The latter applied to the trial Judge for a new trial, which was refused, and the defendant will appeal the case to the State Supreme Court.

Though the majority of automobile designers have abandoned the idea of a subframe a recent French patent shows that this idea still has some advocates. The patent is for a method of chassis construction in which the transmission and motor are to be mounted on a subframe set in an oblique angle to the main axis of the car, the cardan driving shaft thus being led directly to one of the ends of the rear axie, where it carries a bevel pinion meshing with a corresponding bevel gear on the wheel. The transmission of power is solely through this wheel, the other being loosely mounted on the solid axie and of course no differential being employed. By properly mounting the motor with that end in view it is asserted that the centre of gravity of the car as a whole may not be disturbed, and that but for the single side drive the action may be made precisely the same as with the more ordinary arrangement.

The Automobile Club of France has decided upon July 6 and 7 as the dates upon which to run its small car contest and Grand Prix over the Dieppe circuit, instead of July 7 and 8, as has been suggested. The club officials are now considering whether to run the small car event first or the Grand Prix. It seems likely that the Grand Prix will be decided on the second day. When the officers of the Automobile Club of France and the municipal officials of Dieppe asked Premier Clemenceau for permission to hold the races, he not only granted the desired permit but said he would be present himself on the day of the race if it were possible. The Automobile Club of France bas decided

HACKETT AND ALEXANDER WIN Championship in Indoor Doubles Goes to Them for the Third Time.

Harold H. Hackett and Frederick B. Alexander yesterday for the third time in suc ession won the indoor national tennis championship in doubles in a match played in the Seventh Regiment Armory, Hackett and Alexander also are the national champion doubles on outdoor courts. They defeated William B. Cragin, Jr., and Miles S. Charlock in straight sets, 6-3, 6-1, 8-4. It was in many ways a better match than was expected. view of the ability of the teams compared on the basis of previous work. The Cragin Charlock team while never in wanger of winning the championship at least put up a determined fight. They won from the titleholders one more game than Grant and Westfall did last year in the final and, better than that pair, were not heaten a love set. In a semi-final match in singles Gustave F. Touchard of the New York L. T. C. defeated William B. Cragin, Jr., in straight sets. The points were fairly close, in the first set being 6-28 and in the second 29-24. Touchard will meet Wylie Grant this afternoon at 1:30 o'clock for the championship. Frederick B. Alexander will referee the match.

The final round of the consolation also is to be played. G. C. Schaefer, the former Princeton player, now at Columbia, and G. Lorraine Wyeth, former champion of Ohio, will meet for the final. The summary:

The only safe and sure way in which to make chain adjustments is to do it with the car standing in its normal position and after stightening or loosening the strut rods push the car about the floor, constantly lifting or trying the chains, so that high spots in the sprockets may be provided for. In this way there is little danger of getting a chain too sight, which condition is far more serious

One of the most puzzling problems which the racing board of the American Automobile Association has to solve in getting out the new racing rules for this year will be the amateur question. It might be that the present amateur rule would not have received any consideration but for the fact that the Amateur Athletic Union has declared a number of automobilsts to be professionals who were still in the amateur fold according to the standards of the American Automobile Association. The phraseology of the present definition of an amateur in the 1907 racing rules of the American Automobile Association is as follows:

An amateur driver is one who does not race or drive an automobile for hire, or who is not actively engaged in the automobile trade, or who does not make his livelihood or any part of it as a result of his racing, or who has never been declared a professional by any sport governing body.

on the westward tour at 10:30 in the morning, that Hansen would join them at Cheyenne, where Montague Roberts will turn over the machine to another driver.

The departure from Chicago of the Thomas was marked by an ovation. Roberts was at the wheel and he followed the pilot car to the city limits. The pilot car led the way to Dekalb, Ill., which was reached at 4:17 this afternoon, where a new car was pressed into service as pilot. The Thomas flyer was reported in good shape when it left Dekalb, with the roads fairly navigable.

The De Dion and Zust machines were thoroughly overhauled to-day preparatory to resuming the race to-morrow. The German Protos left South Bend, Ind., at 2 o'clock this afternoon and is expected to arrive in Chicago to-morrow morning.

AMERICAN TENNIS ASSOCIATION AFTER THE BOWL.

British Players Also Wish to Regain the Trophy From Australasia Preliminary Match May Be Played Here, the Winners Making the Trip to Meet Holders.

The international committee of the United States National Lawn Tennis Association vesterday sent to Australia a challenge for the Dwight F. Davis international lawn tennis bowl, which the Australians won last year from the holders, the British players. It is understood, too, by the members of this committee. Dr. James Dwight of Boston, William J. Clothier of Philadelphia and Rob-ert D. Wrenn of New York-that the English also have challenged to regain the troph; In that case a preliminary match will be be arranged between the two countries.

It was not generally expected that a challenge would be sent, because it did not seem possible that a feam could be formed from the players hereabouts that would be good enough to represent the country with credit However, the members of the committee kept steadily at work and discovered that they could get enough players who would be willing to go to Australia who would be topnotchers. With these pledges in hand the committee was able to come to a decision before the time limit for challenging was reached. Challenges are supposed to be sent before the first Monday in March.

before the first Monday in March.

There will be one thing in favor of the players from this country, and that is the fact that they will not have to be in Australia probably before September or October. The seasons are such there that lawn tennis playing is hardly at its height before September. There will therefore be no necessity, as in some previous years, for the American players to rush away from this country after some insufficient practice on soft courts in anything but balmy weather.

In fact, the preliminary campaign probably will be the usual round of regular fixtures, and the departure of the team, if it wins from the British, need not come before the national championships. Inder these conditions, the American players ought to have some sort of a chance, rather a better one than was figured out at first.

One of the most important considerations will be the place where the preliminaries are to be held. It is considered that the most logical place would be this country, the argument being that whichever team wins will be directly in its regular path to Australasia. In view, too, of the fact that the British will have plenty of time to prepare for the preliminaries and will be able as well to play in the national championship tournament here they probably will be willing to make the trip.

It is understood that some of the best British There will be one thing in favor of the

the national championship tournament here they probably will be willing to make the trip.

It is understood that some of the best British players were intending to come here next summer just to play in the big tournaments, regardless of any other competitions, so the Davis cup matches, if held here, will fit in with their plans.

The Davis cup, as it is called, is held in Australasia through the efforts of Norman E. Brookes of Australia and Anthony F. Wilding of New Zealand. Last year they beat America by a close margin in the pre-liminaries, and won from England in the challenge round. It was the first time since the Davis cup first was played for that it went to any country but England. It was offered first for competition in 1900, when America and England contended for it. America defended it that year.

In 1901 there was a challenge from Great Britain, but no team could be sent. In 1902 the United States once more defended it successfully, but in 1903 the persistent Britishers won the bowl away from us. There was no challenge in 1904, but the year following the Americans gathered forces and went over. They were beaten in 1905 and 1906 in the finals by England, but put out Australasia both times in the preliminaries. Last year Australasia won the preliminary from America and the final from England.

lost but a single game and this one by a by a very close score to Columbia.

The game was one of the cleanest ever seen on the court, but two fouls being called both against C. C. N. Y. Kaplan at centre was the star, his long shots being the feature of the game. Streusand, the speedy forward, also played very fast and scored 8 points. Heskewitz did some clever blocking.

In the second half, with the score 11 to 5, two new players went in for C. C. N. Y., but the scoring continued until every one on the team scored at least once. For Pennsylvania State Waha and Ross played best. In the preliminary game the C. C. N. Y. freshmen defeated Peekskill Military Academy by the score of 30 to 10.
